

- Thank you for your purchase of an Emerald Green Arborvitae!
- New plants require weekly watering until November
- 1.5 - 2” of mulch will help keep the ground moist around your plant
- Emerald Green Arborvitae are evergreen trees that love full sun but will tolerate part to even full shade
- Emerald Green Arborvitae can be sheared in late spring to maintain their shape
- Fertilize your Emerald Green Arborvitae in early spring and fall with Holly Tone fertilizer for the best performance
- Watch for Bag Worms on your Emerald Green and if found pick them off and destroy them or spray the arborvitae's foliage with the bacterium Bacillus thuringiensis (Bt) that will kill the caterpillar in the bag but is safe for birds
- Remember to water your Emerald Green Arborvitae in mid-summer when the weather gets dry.
- Please call the Garden Center if you have any questions about your plant
