

Thank you for your purchase of a Boxwood!

Tips on how to care for your new garden plant:

- New plants require weekly watering until November
- 1.5 - 2” of mulch will help keep the ground moist around your plants
- Boxwoods are a broadleaf evergreen even though they have very small leaves
- Boxwoods love to be clipped! You can clip your boxwood late spring, mid-summer and fall to keep their shape
- Boxwoods make great container plants because they can be kept small by clipping, just remember to water often mid-summer when it gets dry
- Fertilize your boxwoods in May and September with Holly Tone organic fertilizer to get the best performance
- Please call the Garden Center if you have any questions about your plant
