

Thank you for your purchase of a

Panicle Hydrangea!

Tips on how to care for your new garden plant:

- New plants require weekly watering until November
- 1.5 - 2” of mulch will help keep the ground moist around your plants
- Panicle hydrangeas love full sun so plant them where they will get at least 6-8 hours of full sun
- Panicle hydrangea bloom white flowers, but many start out light green and most turn shades of pink as the flowers age
- They bloom on new growth each summer so you can trim them in the fall or early spring without fear of losing flowers
- Fertilize your panicle hydrangea with Garden Tone in spring for the best performance
- Please call the Garden Center if you have any questions about your plant
