

- Thank you for your purchase of a Japanese Holly!

- New plants require weekly watering until November
- 1.5 - 2” of mulch will help keep the ground moist around your plant
- Japanese Hollies are considered broad leaf evergreens and make great foundation shrubs
- They prefer full sun but will tolerate part sun and part shade
- Shear your Japanese Hollies mid-summer and fall to maintain their shape
- Japanese Hollies do get berries, they are small and black
- Fertilize your Japanese Hollies with Holly Tone fertilizer in early spring and fall for the best performance
- Remember to water your Japanese Hollies in mid-summer when the weather gets dry.
- Please call the Garden Center if you have any questions about your plant
